

IDUHORAHAFI HONORINE

NETWORKING ENGINEERING STUDENT

Network Security • IT Support • SOC Operations

Phone: 0798953095 | Email: iduhorahafihonorine31@gmail.com

LinkedIn: linkedin.com/in/honorine-iduhorahafi-95a788378 | Kigali, Rwanda

PROFESSIONAL PROFILE

Networking Engineering student at Adventist University of Central Africa (AUCA) with practical exposure to network engineering, IT support, SOC operations, and cybersecurity. Skilled in TCP/IP, routing and switching, firewalls, VPNs, Linux administration, SIEM, IDS, security monitoring, vulnerability assessment, malware analysis, and incident response. Strong interest in securing networks, investigating threats, and supporting reliable IT operations.

EDUCATION

Adventist University of Central Africa (AUCA)

Bachelor of Science in Networking Engineering | 2024 – Present | Final-year (Year 4) student

CORE COMPETENCIES

- Network Troubleshooting
- Security Monitoring
- Network Security
- Firewall Administration
- SIEM Administration
- SOC Operations
- Threat Hunting
- Incident Response
- Vulnerability Assessment
- Malware Analysis
- IT Support

TECHNICAL SKILLS

- TCP/IP
- Routing & Switching
- VLAN
- VPN & NAT
- OSPF & BGP
- Cisco Networking
- Linux & Windows
- Network Monitoring
- Security Hardening
- Virtualization / VirtualBox

SECURITY TOOLS

- Wazuh SIEM
- Suricata IDS/IPS
- Wireshark
- tcpdump
- Nmap
- Burp Suite
- OWASP ZAP

- SQLMap
- VirusTotal
- CyberChef

IDU HORAHAFI HONORINE

PROJECTS • PRACTICAL EXPERIENCE • ADDITIONAL SKILLS

TRAINING & CERTIFICATIONS

- Cyber Defence and Response – 10-Week Program (National Cyber Security Authority, in partnership with CyberHub)
- ISC2 Certified in Cybersecurity
- Introduction to Cybersecurity
- Networking Device and Initial Configuration
- Basic Networking for Cisco Certified Network Professional
- Routing and Switching 300-101 ROUTE
- Using Computers and Mobile Devices
- Introduction to Network Operations

CYBERSECURITY EXPERIENCE

- Monitored security events using Wazuh SIEM and investigated suspicious logs and security alerts.
- Configured and monitored Suricata IDS and generated and triaged security alerts.
- Performed malware analysis using VirusTotal and CyberChef.
- Performed network reconnaissance using Nmap.
- Assisted with incident response and forensic investigations.
- Implemented firewall rules and VPN configurations.
- Performed log analysis using Windows Event Viewer and Linux logs.

SELECTED PROJECTS

1. Network Security Implementation

- Designed and implemented network security policies, firewall rules, and access controls to secure a computer lab network. Designed and optimized a campus network to improve performance, reliability, and scalability.

2. SOC Monitoring and Threat Detection using Wazuh SIEM

- Configured Wazuh SIEM for centralized log collection and security monitoring. Investigated security alerts and correlated events to identify suspicious activity. Detected suspicious login attempts and network anomalies. Created dashboards to support security monitoring and analysis.

3. Network Security Monitoring using Suricata IDS

- Configured Suricata IDS and created custom detection rules. Investigated potentially malicious network traffic. Generated and triaged security alerts to support threat detection.

4. Malware Analysis Project

- Analyzed malware samples using CyberChef, VirusTotal, and threat-intelligence resources. Identified indicators of compromise (IOCs) and reviewed malware behavior.

5. Help Desk Ticketing System

- Developed a help desk ticketing system to manage and track IT support requests efficiently. Applied software and IT-support concepts to improve request management.

PROFESSIONAL STRENGTHS

- Analytical problem-solving and network troubleshooting
- Security-focused mindset and attention to detail
- Willingness to learn new technologies and tools
- Ability to work independently and as part of a team
- Strong interest in networking, cybersecurity, and IT support

CAREER OBJECTIVE

To obtain an internship or entry-level opportunity in networking, cybersecurity, SOC operations, or IT support where I can apply my technical knowledge, gain professional experience, and contribute to secure and reliable IT environments.
